Sujoy Ghoshal

Backend Developer @ Capgemini | Java | React | Node.js | Django |
High-Level System Design | Linux Systems
Gurugram, Haryana, India

Summary

I'm a passionate Software Engineer currently working at Capgemini in the Telecommunications industry, focusing on low-level system development for 4G/5G networks using C language.

I bring 2+ years of experience in Java and MERN stack development, having built scalable web applications and backend systems. Recently, I have transitioned into low-level telecom system design, where I'm learning and applying concepts like socket programming, POSIX IPC, and protocol stack architecture.

Core Skills:

- C Programming (System-Level, 4G/5G Protocols)
- Java, Spring Boot (2 years)
- MERN Stack: MongoDB, Express.js, React, Node.js (2 years)
- POSIX, Linux System Calls, Socket Programming (2 months)
- Data Structures & Algorithms
- Git, Postman, REST APIs

Highlights:

- Currently contributing to real-time 4G/5G protocol features at Capgemini
- Built multiple full-stack web applications for real-world use cases
- Teaching and mentoring students in programming and software design

Open to opportunities in:

- Telecom Software Development (C/Linux/Networking)
- Backend / Java Development
- Full-Stack Web Development
- Embedded or Low-Level System Programming

Experience

Capgemini

10 months

Software Engineer

July 2025 - Present (9 months)

Gurugram, Haryana, India

Software Engineer

June 2025 - July 2025 (2 months)

Gurugram, Haryana, India

Education

Chitkara University

Bachelor of Technology - BTech, Computer Science · (September 2021 - June 2025)
